# BUZZ Bug

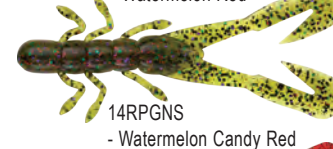

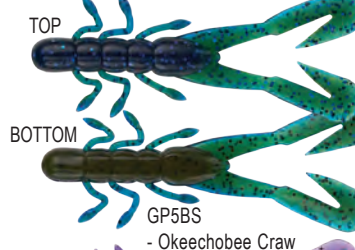

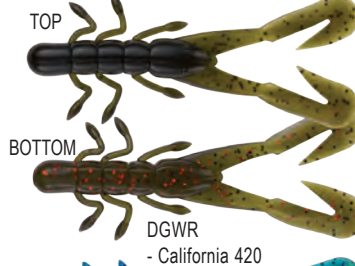

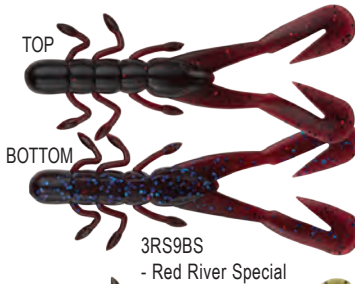

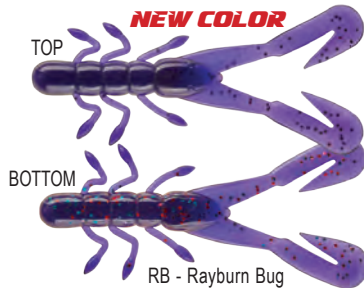

Add the Mister Twister®, BUZZ Bug to your bass fishing arsenal. This versatile swim craw provides maximum action and vibration making it an excellent choice for skirted lures, Mister Twister® Keeper™ Hooks (page 22) or as a trailer.

The BUZZ Bug's tough, thick body makes it an ideal choice for punching and flipping with extra-wide gap hooks. Its long craws extend beyond skirted jigs to produce a consistent swimming action on a steady retrieve or when fished fast.

# SwimSation

Smokin' Shad shown

When Bass Elite Series Pro, Clent Davis requests a new bait, Mister Twister® listens. After 6 months of testing and refining, we had a bait with the exact swimming action Clent was looking for – a hybrid, with all the great features of the SinSation (page 5), plus an irresistible swimming action.

Front Curly Tail® arms produce lift, glide and pulsating visual attraction. An oversized paddle tail kicks wildly, even at slow speeds. The entire body is ribbed and covered with poc't chambers to increase disturbance. Its tapered body allows the tail a greater range of motion than other swim baits.

# Magnum SinSation

The 5" Magnum SinSation is SinSationally effective and versatile rigged any way you prefer! Texas-rigged, Carolina-rigged, on a swim bait head; a scrounger head; or in place of a skirt on favorite spinnerbait, buzzbait or chatterbait.

It's perfect for punching and even works as an oversized drop-shot bait.

Two front Curly Tails® produce lift, glide and pulsating for visual attraction. The back half of the body is thinner, allowing the oversized Curly Tail® to swim SinSationally.

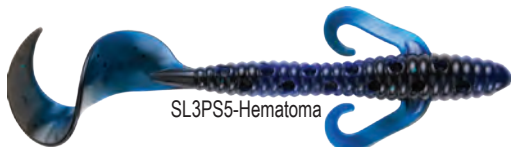

The entire body is ribbed and covered with a series of poc'it chambers to increase water disturbance and slow its swim.

# Flip'n OUT

Green Pumpkin shown

A great flip'n bait with a soft, sturdy, compact, ribbed body and paddle appendages for maximum water displacement to help bass find an easy meal in thick cover. Its two longer claw-like paddles and Mister Twister® Curly Tail® legs generate a lifelike, fleeing motion that's irresistible. The body's recessed centerline creates perfect hook placement.

What's one feature setting this bait apart?

The body's smooth, scaled finish on one side, and deep, textured ribs on the other. By rigging the Flip'n OUT with the hook on the smooth side the lure will fall a little faster than if rigged on the ribbed side. Testing revealed a 17% difference in the fall rate between the two rigging options!

red & silver flake tail

Ordinary buzz baits sink when the retrieve stalls. With the Top Prop™ you can stop it, buzz it, stop & twitch until the bass can't stand it. And, with the Top Prop's attached stinger hook, hook-ups dramatically improve. Top Prop™ fishing is weedless. Fish it in heavy weeds, lily pads and around cover where big bass hang out. The thicker the muck, the better it works.

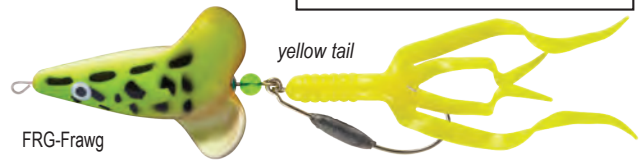

**PROPER RIGGING**

1. Slip the Top Prop's stinger hook onto the bend of the Keeper™ Hook.
2. Push the entire Keeper™ Hook bayonet into the head of the Split Double Tail™ trailer.
3. Insert the point of the Keeper™ Hook into the back of the Split Double Tail™ pushing it through until the point of the hook comes through the top. Back it off slightly and you're ready for truly weedless fishing.

Mister Twister® saltwater jigheads (page 23)

Its fan tail "flips" during presentation to imitate the natural swimming action of a live shrimp. In addition the tail includes a rattle chamber that not only produces fish-attracting sound, but it adds weight to the tail resulting in enhanced motion. Rig it on a Mister Twister® Saltwater Jighead and, depending on the speed of your retrieve, you will be able to fish it at virtually any depth. The key to effective artificial shrimp presentations is tail action and sound. The Exude™ Fan Tail Shrimp not only has both, but its Exude™ formulation begins releasing scent as soon as the lure hits the water. Action, size, sound, colors and scent—Mister Twister's 2 1/2" Exude™ Fan Tail Shrimp has it all.

Everyone knows a Mister Twister® Curly Tail® Grub, rigged with a Mister Twister® jighead, is one of the most effective fishing lures ever. Mister Twister® invented the Curly Tail® Grub - often copied, yet never duplicated.

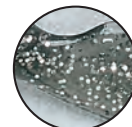

Fish it with a slow, steady twitch. While Exude™ lures are great for saltwater fishing, this is one Exude™ product that truly will catch just about anything that swims.

The Exude™ 4 1/4" D.A.R.T. uses the ten distinct ribs on its underside, to mimic juvenile bait fish. How? First, they displace water, creating turbulence that kicks up bottom sediment, just like a feeding baitfish. Second, the ribs increase surface area, allowing maximum release of Exude™ formula and creating a scent that predators recognize as food.

Plus, the D.A.R.T.'s round solid body gives this lure enough mass to make casting or skipping it a breeze, even against a stiff wind. On a jighead, the D.A.R.T. will stand up from the bottom attracting redfish, trout, snook, and flounder.
